Dear Sol,

Mortimer Kass phoned me. I do appreciate it. He was able to confirm some things of which I was not certain.

It seems possible that there are some ways in which I might help you. As you know, I will. This particular book has been written for several weeks now. I will possibly be adding short pieces to it. I already had a plug for the ADL in it. In the course of this research I discovered what I regard as significant material unknown to your people. I have offered it to Kass. I told him that if you were to send someone to go over my materials, we could make copies here. I have a 3M dry copier. I also told him we could accomodate whoever might come and reduce your costs. If our accomodations are too primitive, we have good friends better situated, less than five minutes away. The man is the former Ferderick head of the BSNai Brith.

It also seems possible to me that you underestimate the National States Rights Party, Nutty they are. But I think a lot more dangerous than your material indicates you believe.

There is a walking directory of the right-wing extreme of the extremists in California to whom I can introduce your people. I think with this introduction, a knowledgeable person could learn an enormous amount, from the inside. This is a man I turned on and befriended. There are others out there, too. If this is of interest to your people, I should like to know in advance. As I told you, this work has put me deep in debt. I will be going to California as soon as there are speaking engagements that will pay my way. At that time I will be able to be the catalyst. I wish it were possible for me to participate in the questioning. However, when my friends have been able to make arrangements for me, I can let whichever of your people might be interested know and do whatever they may desire.

There was an item in your files on Dr. Stanley Drennan of Los Angeles indicating he was in correspondence with Arab countries. If this can be followed carefully through your sources, I think it possible it could be of great significance. I forgot to ask if you have any references to any of the Sirhans. I will be giving you an FBI report on Drennan that indicates he wanted to get JFK assassinated and with him all the members of ADA and about 10,000 others. I have evidence of four NSRP plots against JFK alone. They are co-ordinating or trying to co-ordinate the anti-Jewish violence in the South today and have more ambitious plans. Drennan is NSRP.

I would like to discuss with one of your people what I believe to be the establishment of a roster for American stormtroopers that has been collected with official, intelligence collaboration or connection. I will not be able to go further with this personally save, perhaps, in small ways.

Again, thanks, and best to you all.

Sincerely,

Harold Weisberg
